exclusive and an Emmy award of separating two young boys attached at the head was featured as a CNN separation of conjoined twins Jadon and Anais McDonald. The historic event Dr. Tepper recently received international acclaim for his role in the successful advances have revolutionized patient care and earned him numerous national and international awards. Dr. Tepper recently received international acclaim for his role in the successful separation of conjoined twins Jadon and Anais McDonald. The historic event which he is also now the convener. Apart from being a master rhinoplasty and facial aesthetic surgeon, Wolfgang Gubisch described Helmut in regards to his expertise in nasal and facial reconstruction he is to Europe what Burget and Merck are to the USA.

Dr. Jamil Ahmad is the Director of Research and Education at The Plastic Surgery Clinic. His practice is primarily in aesthetic surgery. Dr. Ahmad is an assistant professor at the University of Toronto Division of Plastic and Reconstructive Surgery. He is the Director of the University of Toronto-Resident Aesthetic Surgery Clinic. He has privileges at the University Health Network, Women’s College Hospital and Mount Sinai Hospital. In 2016, he was given the Chair’s Award by Dr. Chris Forrest for his contributions to the Division. He is co-editor of Dallas Rhinoplasty: Nasal Surgery by the Masters, 3rd Edition. This medical textbook is considered the definitive treatise on rhinoplasty. Most recently, he co-edited Secondary Rhinoplasty by the Global Masters, the only multi-specialty, multi-author textbook dedicated to revision rhinoplasty.

Dr. Konstantin Kurakin, a native of Sardinia (Italy). He received his medical degree at the “Università Degli Studi di Cagliari”. After years of extensive training in the fields of orthognathic surgery, plastic surgery, dental surgery and implantology.

Dr. Oren Tepper is a board-certified Plastic Surgeon specializing in cosmetic and reconstructive surgery. His approach to plastic surgery is entirely unique, offering an all-inclusive outlook balancing traditional beauty concepts with modern day cutting-edge technology. He is a pioneer in stem cell therapy in the St. Antonius hospital I work as a plastic surgeon, operating adults with craniofacial abnormalities caused by surgery, an accident or a malignant disease. And in the Velthuis clinic I work as an aesthetic plastic surgeon, and I specialize in facial surgery, especially rhinoplasty and facelifts. These different areas give me a good balance; I work with both children and adults and I perform both medically and aesthetically necessary corrections.

Dr. Silvio Podda, current Chief of Division of Plastic Surgery and current Director of the Residency Program in Plastic Surgery, is a native of Sardinia (Italy). He received his medical degree at the “Università Degli Studi di Cagliari”. After years of extensive training in the fields of orthognathic surgery, plastic surgery, dental surgery and implantology.

Dr. Tony Yu-Hsun Chiu, M.D., M.M.S., is currently the attending physician of Cosmetic Center Department of Otolaryngology-Head and Neck Surgery at Shin Kong Wu Hsi-Su Memorial Hospital, and the attending physician of Department of Otolaryngology-Head and Neck Surgery at National Taiwan University Hospital. He is also certified by the board of Taiwan Academy of Facial Plastic and Reconstructive Surgery. Dr. Chiu specializes in sinonasal, facial plastic and reconstructive surgery. He has given numerous presentations at national and international meetings on rhinoplasty (U.S.A, Russia, Brazil, France, Italy, Spain, Portugal, Australia, Iran, Korea, Japan, Singapore, Hong Kong, Thailand, Philippines, Vietnam, Indonesia …etc.) is widely recognized as one of Taiwan’s leading rhinoplasty surgeons.
